Polka Dotted

Reimagine the use of a traditional liquid eyeliner with a stippled technique. Dispense Fenty's Flyliner Longwear Liquid Eyeliner onto the back of the hand. Using the opposite end of a small brush, lightly dab the product, placing a dot where desired.

Balancing Act

Adventurous hues and unexpected shapes of brazen creativity can elevate one's appearance. In order to even out bold beauty ideas, use Kjaer Weis Invisible Touch Liquid Foundation (available at The Detox Market) for a modern and fresh face that emphasizes classic dewy skin.

White Out

Opt for white eyeliner as a striking alternative to a standard black hue. Begin by using KVD Vegan Beauty's Super Pomade Vegan Eyeliner, Shadow & Brow Pigment in White Out and a finely tapered eyeliner brush to map out a desired shape with small, subtle strokes. Once finished, go back overtop and connect each line to ensure an even, identical application on both sides.

Brilliant Scarlet

Complete a statement eye look with a corresponding luscious red lip. First, apply a small amount of foundation over the top line, followed by a light powder. After shaping the Cupid's bow with a sharpened lip pencil, line with MAC Cosmetics Lip Pencil in Redd, starting with the outer corners and moving toward the centre to create a fuller appearance. Afterwards, evenly apply MAC Cosmetics Frosted Firework Lipstick in #Snowfilter for an alluring pout.

Kaleidoscopic Twist

Create an unexpected and compelling eyeliner look simply by adding various layers of colour, such as Diorshow On Stage Liner in Matte Yellow (available at Sephora Canada). Line the top of the lash with the liner, slowly spinning the product while swiping along the lid to create an even, opaque width. Repeat this process until a desired effect and colour combination is achieved.
