Neutral Balance

Create an effortless beauty look by using warm undertones. Begin by applying an ashy brown eyeshadow from Dior's Backstage Eyeshadow Palette in Warm Neutrals to the eyelid, moving from the lash line to the crease. With the same tint, dab over your preferred neutral-coloured lipstick for an even aesthetic.

Halo Glow

Allow your face to radiate a heavenly intensity with an all-over makeup moment. Using Dior's Backstage Glow Palette in Glitz, apply a powder lighter than your natural skin tone, circling the perimeter of the face to create a captivating juxtaposition.

Smouldering Gaze

Accentuate the eye area with smoky shades inspired by chiaroscuro painting techniques. Apply Laura Mercier's Caviar Stick Eye Color in Cobblestone to the bottom and top lash lines, moving all the way to the crease. Then, take a fluffy eye brush to blend the product outward to create a diffused wash of brown.

Sculpted Mane

Mold your hair into stylized ringlets by prepping with Oribe's Invisible Defense Universal Protection Spray before using any heated tools. Afterward, set the curls with Oribe's Free Styler Working Hairspray for an arresting appearance.

Spring Flush

Create a glistening visage to complement a gorgeous sunlit afternoon. Using Shiseido's Crystal GelGloss, dab generously on the brow and cheekbones, moving downward to the apple of the cheeks while avoiding the centre of the face, to accentuate your profile.

Dream Locks

Achieve cascading and fluffy tresses for a rich, full hairdo. Start with Hair Rituel by Sisley-Paris La Creme 230 to ensure excellent pliability before styling. Follow by applying Oribe's Gel Serum as a smoothing finishing product, and finally, spritzing Oribe's Dry Texturizing Spray on the ends for a flocculent finish.
